

VAISHNAVI PATEKAR

Phone : 7058559502 | Email : patekarvaishnavi14@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Profile Summary

Self-driven Computer Engineering student (B.E. 2026) with strong foundations in **Java, Data Structures & Algorithms (DSA), and Full Stack Development (MERN)**. Skilled in designing **scalable, user-centric software solutions** with seamless frontend–backend integration. Experienced in building **AI-driven and IoT-enabled applications** addressing real-world challenges. Passionate about **problem-solving, system design, and innovation**, with proven ability to **learn quickly and deliver impactful projects**.

Education

B.E. in Computer Engineering Trinity College of Engineering and Research, Pune CGPA: 8.01	November 2022 – June 2026
Senior School Certificate Examination (CBSE - Science Stream) Rotary English Medium School and Junior College, Khed Score: 79%	June 2021 – March 2022
Secondary School Certificate Examination (SSC) St. Xavier's School , Mahad Score: 93%	June 2019 – March 2020

Skills

- Languages:** Java, JavaScript, PHP
- Web Technologies | Frameworks | Libraries:** HTML, CSS, React.js, Express.js, Node.js
- Databases:** MongoDB, MySQL
- Tools:** Git, GitHub, VS Code, Postman, Linux, Arduino IDE, Raspbian OS

Projects

1. Banquet Hall Booking Website

[LINK](#)

 - Engineered a full-stack **MERN platform** with **real-time slot management** and conflict resolution to prevent double-bookings.
 - Streamlined booking flow by integrating RESTful APIs with an intuitive React.js frontend, reducing manual steps for users.
2. Campus Auto Connect

[LINK](#)

 - Developed a student ride-booking platform with **HTML, CSS, JavaScript, Express.js, and MongoDB**, ensuring secure data handling.
 - Automated booking confirmations and optimized user workflow, enhancing campus transportation efficiency.
3. AI Driven Smart Blind Stick

[LINK](#)

 - Built an assistive device using **Raspberry Pi** and **ESP32-CAM** for object recognition, voice alerts, and GPS-based SOS.
 - Integrated **water , motion detection** with **90%+ obstacle recognition accuracy**, enhancing mobility for visually impaired users.
4. Memory Flipping Tiles Game

[LINK](#)

 - **Designed** an interactive Java Swing game with **difficulty levels, timer, dark mode, and move tracking**.
 - Enhanced gameplay experience using **OOP principles, ArrayList algorithms, and event-driven logic**, resulting in a responsive UI.

Internship

Intern – Edunet Foundation(SAP)	January 2025 – April 2025
- Delivered 3+ IoT and AI projects including sign language recognition and smart brightness control. - Strengthened AI , ML and Data Science skills through hands-on problem-solving in real-world contexts. - Collaborated in a team to enhance communication and project execution efficiency.	

Certifications

- Java Course – Scaler Academy
- IBM Cyber Security Certificate – IBM Skills Build
- Augmented & Virtual Reality Bootcamp Certificate – CDAC
- Accenture Data Analytics and Visualization Job Simulation – Forage

Achievements

- **Finalist, Code Unnati Innovation Marathon 3.0** – Selected among **160** projects and presented at GTU, Ahmedabad.
- **Winner, ISTE Prototype Making Competition** – Built innovative IoT-based assistive solution.
- **Research Paper Published (IJIRT 2024)** – Enhancing Healthcare with Predictive Analytics Using Machine Learning Model.
