

VAISHNAVI PATEKAR

Software Developer | Fresher

Phone: 7058559502 | Email: patekarvaishnavi14@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Profile Summary

Computer Engineering graduate (CGPA 8.28) skilled in **Java, DSA, and Full-stack MERN development**. Hands-on experience building REST APIs, working with MongoDB and MySQL, and developing AI/IoT solutions through an internship and innovation competitions. Seeking an entry-level software developer role to build reliable, user-focused applications.

Education

Bachelor of Engineering (B.E.) in Computer Engineering 2022 – 2026
Trinity College of Engineering and Research, Pune
CGPA: 8.28

Senior School Certificate Examination (Class XII – CBSE) 2021 – 2022
Rotary English Medium School and Junior College, Khed
Percentage: 79%

Secondary School Certificate Examination (Class X) 2019 – 2020
St. Xavier's School, Mahad
Percentage: 93%

Skills

- Technical skills :** Java, OOP, SQL, HTML, CSS, JavaScript, React.js, Node.js, Express.js
- Databases & Tools :** MongoDB, MySQL, Git, GitHub, VS Code, Postman
- Soft Skills :** Communication, Teamwork, Problem-solving, Adaptability

Projects

1. Banquet Hall Booking Website [LINK](#)
• Built a Full-stack MERN platform with real-time slot availability and conflict checks that prevent double-bookings.
• Developed RESTful APIs and a React.js frontend for browsing, booking and confirming halls, reducing manual steps for users.

2. Coffee Cafe Website [LINK](#)
• Developed a fully responsive and animated Coffee Cafe landing page using **React, Tailwind CSS**, and **AOS**.
• Designed and implemented modern UI components with scroll-based animations, ensuring seamless cross-device compatibility.

3. AI Driven Smart Blind Stick [LINK](#)
• Built an assistive device using **Raspberry Pi** and **ESP32-CAM** for object recognition, voice alerts, and GPS-based SOS.
• Integrated **water and motion detection** with safety features to support safer and more independent mobility for visually impaired.

4. Memory Flipping Tiles Game [LINK](#)
• Built an interactive game using **Core Java** and **Java Swing**, applying **OOP** principles and **data structures like ArrayList**.
• Implemented event-driven logic for game features such as **timer, move tracking, difficulty levels**, and **responsive UI**.

Internship

Intern – Edunet Foundation(SAP) January 2025 – April 2025
• Worked on AI and IoT projects as part of a team, applying machine learning and data science concepts to practical problems.
• Gained hands-on experience with Python and IoT sensors through project-based training.

Certifications

- Java Course** – Scaler Academy
- Yuva AI for All** – FutureSkills Prime (NASSCOM & IndiaAI)
- Augmented & Virtual Reality Bootcamp** – CDAC

Achievements

- Design Patent Granted** – Smart Navigation Stick for Visually Impaired Individuals.
- Finalist, Code Unnati Innovation Marathon 3.0** – Selected among 160 projects and presented at GTU, Ahmedabad.
- Winner, ISTE Prototype Making Competition** – Built innovative IoT-based assistive solution.
